

Five Year Prioritized Transportation Projects

DESCRIPTION	COST	START/ END	Council District	NPU
A.2/C.5 Conduct concept and engineering design plan for an interchange improvement at Langford Parkway at Campbellton Road/Greenbriar Parkway. Move the project from the 2010 RTP network to 2005 as part of the RTP update. Concept and design to include a redesign of Campbellton Rd at Mt. Gilead Rd intersection. Landscaping and signage for an ultimate gateway into the area should be included in design.	\$150,000	10/01-10/02	11	R
A.1 Conduct concept and engineering design plans for a half diamond interchange @ I-285/Greenbriar Parkway. Concept design must establish need and purpose for the project in order to include it in the Regional Transportation Plan update. Concept process should also include the development of either an Interchange Justification Report (IJR) or Interchange Modification Report (IMR) as may be required by the Federal Highway Administration. The concept and engineering study must also consider and coordinate with the System-wide HOV Plan being developed by Georgia Department of Transportation.	\$200,000	12/01-12/02	11	P, R
C.1 Conduct detailed traffic analysis, engineering design and build an improvement to Greenbriar Parkway at Headland Drive intersection. Analysis to include traffic operational improvements to the access road into and out of Greenbriar Mall, which aligns with Headland Drive.	\$400,000	1/02-1/03	11	R
C.2 Detailed traffic analysis, engineering design, gateway design and build an improvement at the Barge Road and Campbellton Road intersection. The design should address the current circulation issues at the Barge Road Park and Ride Lot.	\$400,000	1/02-1/03	11	P

C.3 Design and Build a Gateway improvement at Greenbriar Parkway and Continental Colony Parkway to include green traffic islands, better striping and signing. Perform a traffic signal warrant analysis and include a traffic signal cost	\$65,000	4/02-4/03	11	R
D.2 Design/build major streetscape along Greenbriar Parkway (from Langford Parkway to I-285)	\$1,920,000	4/03-4/04	11	R
D.3 Design/build major streetscape along Continental Colony Parkway (from Greenbriar Pkwy to Hogan Rd)	\$3,160,000	5/03-5/04	11	R
D.5 Design/build minor streetscape along Hogan Road (from Stone Hogan to City limits)	\$500,000	6/03-6/04	11	R
D.7 Design/build minor streetscape along Childress Drive (from Panther Trail to Campbellton Road)	\$250,000	6/02-6/03	11	R
D.6 Design/build minor streetscape along Headland Drive (from Greenbriar Pkwy to City limits)	\$250,000	6/02-6/03	11	R
D.4 Design/build sidewalk- one side of Barge Rd (from Campbellton Road to Greenbriar Pkwy)	\$750,000	6/03-6/04	11	P
B.3 Design/build the Barge Road/Greenbriar Parkway connector road	\$900,000	6/04-6/05	11	P
B.2 Design/build the Greenbriar Parkway Road extension to Stone Road. Include in the RTP update process.	\$500,000	6/04-6/05	11	R
B.1 Design and build for the Stone Hogan Road extension to North Desert Drive.	\$1,650,000	6/04-6/05	11	R
A.3 Conduct need and purpose study for a potential reconfiguration of the I-285/SR 166 interchange. Include in the Regional Transportation Plan Update.	\$750,000	8/02-4/03	11	P, R
Develop a greenway feasibility and location plan to connect the Greenbriar Mall area to the proposed Lakewood Trail and to the parks outside the study area	\$60,000	12/04-12/05	11	P, R
Build I-285/Greenbriar Parkway half diamond interchange	\$10,000,000	long-term	11	P, R
Build Langford Parkway/Greenbriar interchange improvement	\$5,000,000	long-term	11	R
Reconstruct I-285/SR 166 interchange	\$100,000,000	long-term	11	P, R
